KEY SUCCESS AREAS

SAFETY	- Comply with Endeavour's Workplace Health and Safety policies and procedures to ensure safety in the workplace is upheld. - Be vigilant for situations that may cause a safety risk and take steps to minimise the risk by identifying and reporting potential hazards in the workplace to the Supervisor. - Report any accidents and incidents to the Manager immediately or as soon as possible to ensure investigation occurs in a timely manner and appropriate controls are identified and implemented to prevent recurrence.
CUSTOMER CONNECTION	- Promote and enhance the reputation of Endeavour Foundation by providing effective customer service to contractors and members of the public to ensure high levels of customer satisfaction is achieved. - Assist customers with enquiries and information requests to ensure they are provided with friendly, accurate information in a timely manner. - Liaise with contractors, external suppliers and/or council or government representatives as required to ensure their requests are met and accurate information is provided.
OUR PEOPLE	Comply with the organisation's Quality Management Systems policies and procedures, to ensure consistency in meeting the expectations of your role.

	• Comply with the continuous improvement process, completing quality improvement forms and ensuring the continuous improvement process is communicated, promoted, and adhered to. • Communicate effectively with your manager to solve problems, review procedures and complete quality improvement forms to ensure improvements in service delivery and customer needs are identified and implemented. • Participate in team building activities, including actively participating in the Performance Development and Review program to ensure individual and team key performance indicators are achieved, and Endeavour's values and behaviours are consistently demonstrated. • Attend as directed and participate in on-the-job training and meetings and comply with Endeavour's policies and procedures to ensure knowledge and skills are adequate to fulfil operational requirements. • Achieve KPI's as communicated by the Manager to ensure participation in organisational success is understood and accomplished. • Provide training and assistance to other members of the team in procedures to ensure optimal service standards are achieved.
OPERATIONAL EXCELLENCE	• Unlock and lock all public access gates to waste facility prior to the commencement of each working day and at the end of each working day to ensure security requirements are met and maintained (if required). • Inspect the load of each vehicle entering the waste facility to ascertain the contents of each load and direct drivers to the appropriate recycling areas. • Assist drivers and customers to unload contents and advise on the most appropriate methods of disposing of load contents by providing instructions for the separation of specified materials to ensure specific safety requirements are met. • Ensure any inappropriate activities involving customers and other users of the facility are advised at the earliest convenience to the shift supervisor to ensure appropriate action may be undertaken. • Maintain a high level of tidiness and presentation of premises to ensure Endeavour's image is of the highest standard. • Operate truck to transport materials, including safely loading and unloading stock. • Ensure plant and equipment is maintained in safe working order, including through conducting thorough pre-start checks prior to operation and completing a daily pre-start form. • Ensure all goods are handled in a manner which maintains quality, minimises possible damage and adheres to and promotes safe work requirements. • Supervise the truck offsider (if applicable) to ensure adherence to safe manual handling procedures during loading and unloading. • Collaborate effectively within the team, communicating clearly and providing concise instructions.
FINANCIAL SUSTAINABILITY	• Support the improvement of operational performance and outcomes of the designated site. • Contribute to the ongoing growth in the designated service, by identifying growth opportunities

WHAT YOU NEED TO SUCCEED

CAPABILITIES	• Demonstrates high level interpersonal and communication skills to develop relationships with team members and stakeholders and deal with issues of a sensitive nature. • Proven ability to coordinate projects and delegate activities to meet outcomes within required timeframes. • Demonstrates written and verbal communication skills, to ensure clear and concise information is presented to the team, manager and customers.
---------------------	--

	• Demonstrates problem solving skills, to successfully identify problems, develop solutions and implement these using a logical and systematic approach. • Demonstrates commitment to developing skills and enhancing personal development.
SKILLS & QUALIFICATIONS	• Possession of a current minimum MR Truck Licence. • Proficient in communicating information effectively and addressing customer inquiries to meet their needs. • Demonstrated success in cultivating positive relationships and enhancing customer satisfaction and loyalty in a customer service setting. • Previous experience in recycling or a related field is highly desirable. • Previous experience in recycling or a similar role is highly valued. • Possess a forklift license (if applicable).
EXPERIENCE	• Has the ability to move and lift items as required when assisting customers to unload and move the contents of their loads. • Move and lift items around the site to maintain site operations. This may be either manually or through the operation of mechanical plant (e.g. a forklift), if required. • Has the flexibility (as required) to work some shifts in different waste facilities on a rotational basis to fulfil the contractual requirements of Endeavour Foundation Industries. • Personal presentation to a high standard.
OTHER REQUIRMENTS	• Possession of a current driver's licence. • Hold current worker screening checks at all times, as defined by legislative requirements and organisational policy • Personal presentation to a high standard.
